**Subject:** sequence search-SEQ ID NO: 399738, application 10/708,952

Hello,

I need a search of nucleotides 1-10,000 of SEQ ID NO: 399738, length limited to 19-140 nucleotides.

Thank you,  
Amy Bowman

**To:** Priebe, Scott  
**Cc:** Schultz, James; Bowman, Amy  
**Subject:** FW: 10708952

Hello,  
As explained in the attached e-mail, STIC has cancelled my search request for SEQ ID NO:399738 in application 10/708,952 because it has 13,740 residues. Do you have a suggestion on how I should proceed with this search request? Here is the broad claim, claim 16 (claims filed 6/18/07):

An isolated nucleic acid consisting of X nucleotides wherein  
X is 19-140 and the sequence of the nucleic acid comprises:  
(a) at least Y consecutive nucleotides of SEQ ID NO: 399738 wherein Y is at least 19;  
(b) an RNA equivalent of (a);  
(c) a sequence at least 80% identical to (a) or (b); or  
(d) the complement of any one of (a)-(c).

This is the search that I requested:  
I need a search for SEQ ID NO: 399738, length limited to 19-140 nucleotides.

This application is currently a 2, so I need to have an approved search request as soon as possible.  
Thank you for your assistance,  
Amy Bowman

Hi Amy,

Unfortunately, we are unable to process your request. Sequence 399738 has 13,740 residues which is over our 10,000 residue limit. Your request has been canceled. Please meet with one of the examiner screen team members for suggestions on optimizing the processing time. Once you have met and made changes, please resubmit your request to STIC-Biotech.

Sincerely,  
M
